Release Notes

Version: 108.30.12.17 (Beta)

Release Date: November 4, 2026
Supported SmartPlus Version: V7.5

New Feature

- Added ACMS Pro compatibility for the following new features:
  - Support My Mobile Key and pairing code configuration.
  - Support converting PIN codes into QR codes.
  - Support configuring License Plate Recognition (LPR) plates.

Version: 108.30.12.13 (Beta)

Release Date: October 20, 2026
Supported SmartPlus Version: V7.5

Optimization

1. Optimized the A08 Status Light configuration to support Input A/B triggers and Duration/Count settings.
2. Optimized the NFC feature.

Version: 108.30.12.9 (Beta)

Release Date: August 31, 2026
Supported SmartPlus Version: V7.5

New Features

1. Support scanning barcodes as card credentials for integration with the third-party access control server.
2. Support setting the status light for motion detection.
3. Support setting Tap as Card Signal Threshold.

Version: 108.30.12.6 (Beta)

Release Date: August 20, 2026
Supported SmartPlus Version: V7.5

New Feature

1. Support the new features of the SmartPlus V7.5:
    a. Support the Event Trigger Rules feature for Smart Access projects.
    b. Support the Apple Wallet feature.
    c. Support new event log types and reporting logs to the cloud.
    d. Enhanced the Emergency feature with the following updates:
        i. Multiple Scenarios: support creating multiple Emergency Scenarios.

ii. Select Trigger Source: support selecting the device's Inputs from the cloud as Trigger Sources, eliminating the need to configure them via the device's web portal.
iii. Auto Clear: enable Auto Clear for scenarios based on Input signals.
iv. LAN Door Linkage: support direct LAN linkage with preset doors, ensuring functionality even when the device is offline.

Version: 108.30.11.236 (Beta)

Release Date: August 19, 2026
Supported SmartPlus Version: V7.4

New Feature

1. Added Card Encryption option, which supports HID iClass, HID iClass Seos, and Mifare Classic types.
2. Updated HTTP API.

Version: 108.30.11.231 (Beta)

Release Date: July 29, 2026
Supported SmartPlus Version: V7.4

Optimization

1. Support reading the Wiegand 26 card.
2. Support reading 37-bit HID prox card.

Fixed Bug

- Fixed a card-reading issue.

Version: 108.30.11.228 (Beta)

Release Date: July 17, 2026
Supported SmartPlus Version: V7.4

Optimization

1. Optimized the integration with a third-party access control server.
   a. Added the Authorization Mode.
   b. Added the Multi-factor Authentication Request Mode.

Version: 108.30.11.226 (Beta)

Release Date: July 13, 2026
Supported SmartPlus Version: V7.4

New Feature

- Support relay schedules for connected SR01 devices.

Version: 108.30.11.223 (Beta)

Release Date: June 30, 2026
Supported SmartPlus Version: V7.4

New Feature

- Support real-time upload of access, call, and event logs to a remote server.

Version: 108.30.11.221 (Beta)

Release Date: June 10, 2026
Supported SmartPlus Version: V7.4

New Feature

- Support using with ACMS Pro.

Version: 108.30.11.218 (Beta)

Release Date: June 10, 2026
Supported SmartPlus Version: V7.4

New Features

1. Support the Relock When Door Closed option.
2. Support selecting the Door Sensor when configuring the relay.

Version: 108.30.11.213 (Beta)

Release Date: May 13, 2026
Supported SmartPlus Version: V7.4

Optimization

- Improved the user experience.

Version: 108.30.11.212 (Beta)

Release Date: April 30, 2026
Supported SmartPlus Version: V7.4

Optimization

- Improved the user experience.

Version: 108.30.11.210 (Beta)

Release Date: April 13, 2026
Supported SmartPlus Version: V7.4

New Features

- Support new features of SmartPlus V7.4.0:
  - Support Parking Restriction feature.
  - Support elevator control feature:
    Support configuring elevator control devices and floor schedules.
    Support calling elevators from the SmartPlus App, guard phones, and Administrator Portal (for Smart Access)
  - Support showing snapshots from both the door phone and third-party cameras in door logs.
  - Added User Information to the log of Hold Open and Lockdown options.
  - Improved unlock failed logs with clearer reasons, such as parking, holiday, or schedule limits, missing permission, expired plates or users, door interlock, and failed two-factor authentication.

Version: 108.30.11.122 (Beta)

Release Date: April 1, 2026
Supported SmartPlus Version: V7.3

New Features

1. Optimized the Mifare Classic and DESFire Card reading configuration.
2. Support two-factor authentication mode for integration with the third-party access control server.

Version: 108.30.11.118 (Beta)

Release Date: March 11, 2026
Supported SmartPlus Version: V7.3

New Feature

1. Added new web languages: Traditional Chinese, Czech, Portuguese, Italian, Dutch, French, German, and Polish.

Version: 108.30.11.113 (Beta)

Release Date: January 21, 2026
Supported SmartPlus Version: V7.3

New Feature

- Support the Ignore Facility Code for card reading and Wiegand input.

Version: 108.30.11.110 (Beta)

Release Date: December 1, 2025
Supported SmartPlus Version: V7.3

New Features

- Support **SmartPlus V7.3.0** new features:
  1. Support door control and door status viewing by administrators via the web portal.
  2. Added First Credential In, Lockdown Bypass, and Hold Open options for Door Schedule.
  3. Support granting Lockdown Bypass permission to users.
  4. Support setting Holiday Exemption for Access Schedule.
  5. Added detailed door-open failure reasons in Door Logs and support quick card addition from failed records.

6. Added Event Report feature on the Property Manager and Admin portal.

Version: 108.30.11.61 (Release)

Release Date: October 23, 2026
Supported SmartPlus Version: V7.1.1

Fixed Bug

- Fixed an issue with HID card reading failures.

Version: 108.30.11.60 (Release)

Release Date: September 3, 2026
Supported SmartPlus Version: V7.1.1

Fixed Bug

- Fixed an issue with QR code unlocking.

Version: 108.30.11.58 (Release)

Release Date: May 18, 2026
Supported SmartPlus Version: V7.1.1

Optimization

- Improved the user experience.

Version: 108.30.11.53 (Beta)

Release Date: December 1, 2025
Supported SmartPlus Version: V7.1.1

New Features

1. Added Open Door Tone Mode.
2. Optimized Bistable Mode to support:
   a. door-closing sound
   b. door status prompts
   c. auto-clearing password after door opens

Version: 108.30.11.50 (Beta)

Release Date: November 3, 2025
Supported SmartPlus Version: V7.1.1

New Features

1. Support OSDP V2.0 when the device works as an OSDP output device.
2. Support uploading door unlock screenshots to the cloud, and monitoring devices via Indoor Monitor or App.

Optimization

- Optimized the Bluetooth unlocking solution.

Version: 108.30.11.41 (LTS/Release)

Release Date: October 13, 2025
Supported SmartPlus Version: V7.1.1

New Feature

- Support reading HID iClass and iClass Seos encrypted cards.

Version: 108.30.11.39 (Beta)

Release Date: September 30, 2025
Supported SmartPlus Version: V7.1.1

New Features

1. Added ID Card Reading Bytes setting with options 3 and 4; default is 3.
2. Support connecting with multiple EC33 under Mail Box mode.

Fixed Bug

- Fixed an issue where Wiegand output number was incorrect when using QR code.

Version: 108.30.11.35 (Beta)

Release Date: September 22, 2025
Supported SmartPlus Version: V7.1.1

New Feature

- Added Activation Required feature that keeps the door open for a scheduled time after the first time open.

Version: 108.30.11.27 (Beta)

Release Date: September 1, 2025
Supported SmartPlus Version: V7.1.1

New Features

1. Added tamper alarm logs for device that be connected to community projects.
2. Enhanced Log module on the cloud:

a. Record all calls from cloud-connected devices (both SIP and IP calls).
b. Merged group calls into a single record with APT number and answerer information.
c. Display door phone call logs only in the call log page.
d. Allowed the family master account to view all members' call/unlock logs.
e. Allowed Installer/Property Manager to set log visibility scope for sub-accounts.
f. Allowed Installer to configure whether door phone call logs contain screenshots.
g. Allowed Installer to configure whether property managers can view door/call logs with screenshots in each project.

3. Support configuring Facility Code.

Version: 108.30.11.22 (Beta)

Release Date: August 6, 2025
Supported SmartPlus Version: V7.1.1

New Feature

- Supported configuring negative floors on the cloud.

Version: 108.30.11.19 (Beta)

Release Date: July 29, 2025
Supported SmartPlus Version: V7.1.1

Fixed Bugs

- Fixed some known issues.

Version: 108.30.11.16 (Beta)

Release Date: July 9, 2025
Supported SmartPlus Version: V7.1.1

New Features

1. Changed the image upload method to the cloud from FTP to HTTPS to enhance security.
2. Updated API.
3. Added Integration with following third-party cameras:

Brand	Model
UNV	IPC3614LE-ADF28K-G
TP-Link	TL-IPC544TP-WB6
Hikvision	DS-2CD3346P1-L
Dahua	DH-3H3200-ADW
Milesight	MS-C2962-FIPB
Tiandy	TC-C321N SPEC:I3/E/Y/2.8mm
AXIS	MS-C2962-FIPB

Version: 108.30.11.9 (Beta)

Release Date: May 13, 2025
Supported SmartPlus Version: V7.1.1

Fixed Bug

- Fixed some known issues.

Version: 108.30.11.8 (Beta)

Release Date: April 30, 2025
Supported SmartPlus Version: V7.1.1

New Features

1. Support the lockdown function.
2. Support identifying license plates and UHF cards for smart parking.
3. Support selecting the input(s) connected to the exit buttons on the cloud.
4. Support reporting logs of tamper alarm and break-in alarm to the cloud.
5. Support selecting the Wiegand port on the cloud.
6. Support setting the RS485 on the cloud.
7. Support reporting logs of door-opening by pressing an exit button to the cloud.
8. Added Muster Reader feature.
9. Added API for retrieving QR code images for user passwords.

Version: 108.30.10.209 (Beta)

Release Date: July 9, 2025
Supported SmartPlus Version: V7.0

Fixed Bugs

- Fixed some knwon issues.

Version: 108.30.10.204 (Beta)

Release Date: March 9, 2025
Supported SmartPlus Version: V7.0

New Feature

- Updated daylight saving time.

Version: 108.30.10.161 (Beta)

Release Date: September 29, 2026
Supported SmartPlus Version: V7.0

New Feature

- Added Super Card configuration.

Version: 108.30.10.159 (Beta)

Release Date: September 14, 2025
Supported SmartPlus Version: V7.0

Fixed Bug

- Fixed a known issue.

Version: 108.30.10.155 (Release)

Release Date: July 31, 2025
Supported SmartPlus Version: V7.0

Fixed Bugs

- Fixed some known issues.

Version: 108.30.10.154 (Beta)

Release Date: July 9, 2025
Supported SmartPlus Version: V7.0

Fixed Bugs

- Fixed some known issues.

Version: 108.30.10.153 (Release)

Release Date: June 27, 2025
Supported SmartPlus Version: V7.0

Fixed Bugs

- Fixed some known issues.

Version: 108.30.10.149 (Release)

Release Date: March 5, 2025
Supported SmartPlus Version: V7.0

Fixed Bugs

- Fixed some schedule feature issues.

Version: 108.30.10.146 (Beta)

Release Date: January 9, 2025
Supported SmartPlus Version: V7.0

New Features

1. Integrated with Control4 devices.
2. Added Entry Restriction feature.
3. Modified File ID range of Desfire to 0-31.

Version: 108.30.10.144 (Release)

Release Date: January 6, 2025
Supported SmartPlus Version: V7.0

Fixed Bugs

- Fixed some known issues.

Version: 108.30.10.141 (Beta)

Release Date: December 27, 2024
Supported SmartPlus Version: V7.0

Optimization

- Improved device security.

Version: 108.30.10.139 (Beta)

Release Date: December 20, 2024
Supported SmartPlus Version: V7.0

New Features

1. Support sending access control information to a third-party server, which will respond with door opening success or failure.
2. Support configuring 3 Bytes and 4 Bytes for ID Card Reading.
3. Added Voice Prompt Setting for customization.
4. Support re-uploading Access Logs generated during device offline status, specifying Relay ID.

Optimization

1. Optimized Desfire Card configuration process.

2. Optimized Event Log, including time change, operator of password modification, and All option for filter.

Version: 108.30.10.129 (Release)

Release Date: December 9, 2024
Supported SmartPlus Version: V7.0

Fixed Bug

- Resolved an issue where QR code reverted to incorrect Wiegand output data.

Version: 108.30.10.126 (Beta)

Release Date: November 5, 2024
Supported SmartPlus Version: V7.0

New Features

1. Added an optional user permission to allow door access during holidays.
2. Support Mifare Plus SL3.

Version: 108.30.10.121 (Release)

Release Date: November 9, 2024
Supported SmartPlus Version: V7.0

New Feature

- Support using with HID iClass devices.
